

The Edinburgh Postnatal Depression Scale (EPDS)¹

CHECKLIST FOR PREGNANT WOMEN AND NEW MOTHERS

The EPDS is a set of questions which can tell you whether you have symptoms that are common in women with depression and anxiety during pregnancy and in the year following the birth of a child. **This is not intended to provide a diagnosis** – only trained health professionals should do this.

To complete this set of questions, mothers should **circle** the number next to the response which comes closest to how they have felt in the PAST SEVEN DAYS.
